Project Executable Files

Date	2nd July 2026
Team ID	
Project Name	Rising Waters
Maximum Marks	3 Marks

Project Executable Files

Step 1: Submission Checklist

S.No	Item to Submit	Submitted (Yes / No / NA)
1	Complete source code (all files and folders)	YES
2	README / Setup Guide (instructions to run the project)	YES
3	requirements.txt / package.json / dependency file	YES
4	Database schema / seed files (if applicable)	NA
5	Environment configuration file (.env.example or similar)	NA
6	Deployed application URL (if hosted)	NO
7	APK / Executable binary (if applicable for mobile/desktop apps)	NA
8	Dockerfile / Containerization config (if applicable)	NA
9	Test files and test results	YES
10	Demo video or walkthrough (if required)	YES

Step 2: File / Folder Structure

```
RisingWatersProject/

```

Step 3: Deployment / Access Details

Field	**Details**
Hosted / Deployed URL	Not Deployed (Local Deployment)
Login Credentials	Not Required
Platform / Hosting Provider	Local Flask Development Server
Repository Link	https://github.com/SumanthReddy078/Rising-Waters
Demo Video Link	

Step 4: Run Instructions
Prerequisites

• Python 3.10 or above • Visual Studio Code (Recommended) • Git (Optional) • Required Python libraries installed through requirements.txt

Step	Command / Description
1	git clone <GitHub Repository URL>
2	cd RisingWatersProject
3	python -m venv venv Windows: venv\Scripts\activate Linux/macOS: source venv/bin/activate
4	pip install -r requirements.txt
5	python app.py
6	Open http://127.0.0.1:5000
7	Navigate to the prediction page, enter weather parameters, and click Predict Flood Risk.

Step 5: Known Issues / Limitations

S.No	Known Issue / Limitation	Workaround / Status
1	Application currently runs on a local Flask development server.	Can be deployed on IBM Cloud, Render, or similar cloud platforms in the future.
2	Real-time weather data integration is not available.	Future enhancement using Weather APIs.
3	Prediction depends on historical dataset quality.	Model can be retrained periodically using updated datasets.
